

Arena Stone

Arena Stone

Arena Stone has a contemporary smooth, flat top with a beveled edge. Its large 12"x12" size covers a lot of surface area with ease. Arena Stone is part of the Leiden five-stone paver collection that also includes Park, Plaza, Holland and Half Holland stones. It also pairs really well with our 6"x6" City Square in a 1:2 ratio for a beautiful linen pattern. You can mix and match to create the look you want for enduring appeal.

Composition and Manufacture

Arena Stone is made from a low moisture concrete mixture. It is made under high pressure and high frequency vibration, producing a very dense stone, low in water absorption (less than 5%) and high in compressive strength PSI (above 8000). It is designed to meet or exceed ASTM C-936 and ASTM C-67 (freeze/thaw) specifications.

Dimensions:

Thickness: **60mm** (2.36")

Width: **298mm** (11.73")

Length: **298mm** (11.73")

Pcs/SqFt: **1**

Pcs/Pallet: **108**

Approx Wt: **28 lbs/pc**
