

Chateau Wall™

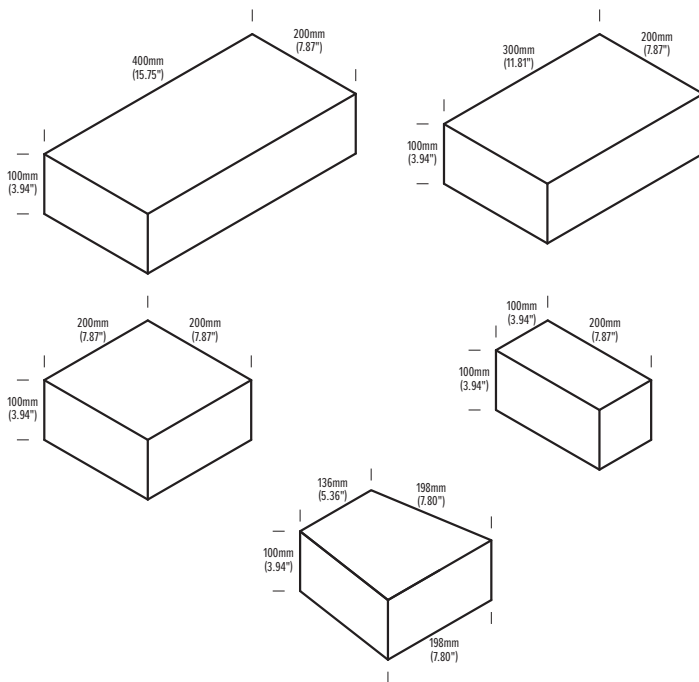

Chateau Wall™

Chateau Wall™ opens new horizons in free-standing garden wall and small retaining wall options. With its versatile modular sizing and glue together construction, Chateau Wall™ is an easy way to creatively enhance your outdoor spaces. Each individual block is treated to give it a hand-hewn old-world look that fits in with the natural Northwest landscape. Available in four sizes and several colors that coordinate well with all our pavers, Chateau Wall's options are endless.

Composition and Manufacture

Chateau Wall™ is made from a low moisture concrete mixture. It is made under high pressure and high frequency vibration, producing a very dense stone, low in water absorption (less than 5%) and high in compressive strength PSI (above 8000). It is designed to meet or exceed ASTM C-936 and ASTM C-67 (freeze/thaw) specifications.
