

City Square Stone

City Square Stone

This modern paver feels just like downtown. Petula Clark said that the lights are brighter downtown, and City Square is a paver that is right at home there. It is medium in size and contemporary in style with a flat, smooth top. The City Square makes an excellent border stone, and also pairs nicely with our Arena Stone in a 1:2 ratio.

Composition and Manufacture

City Square Stone is made from a low moisture concrete mixture. It is made under high pressure and high frequency vibration, producing a very dense stone, low in water absorption (less than 5%) and high in compressive strength PSI (above 8000). It is designed to meet or exceed ASTM C-936 and ASTM C-67 (freeze/thaw) specifications.
