

Holland Stone (80mm)

80mm Holland Stone

This is the heavy duty version of our popular Holland Stone. Its traditional rectangular brick shape can be used in historical and contemporary applications alike. 80mm Holland Stone's striking colors and modular size allow it to be used in multiple design variations for almost any purpose. The 80mm thickness can stand up to heavy vehicular traffic, and is suitable for commercial applications.

Composition and Manufacture

80mm Holland Stones are made from a low moisture concrete mixture. It is made under high pressure and high frequency vibration, producing a very dense stone, low in water absorption (less than 5%) and high in compressive strength PSI (above 8000). It is designed to meet or exceed ASTM C-936 and ASTM C-67 (freeze/thaw) specifications.

Dimensions Holland Stone:

Thickness: **80mm** (3.15")
Width: **98mm** (3.86")
Length: **198mm** (7.80")
Pcs/SqFt: **4.56**
Pcs/Pallet: **378**
Approx Wt: **8.22 lbs/pc**
