

Holland & Half Holland Stone

Holland and Half Holland Stone

At home both at a Victorian style mansion and a modern flat. Its traditional rectangular brick shape can be used in historical and contemporary applications alike. Holland Stone's striking colors, available surfaces, and modular size allow it to be used in multiple design variations for almost any purpose. Holland and Half Holland Stone are part of the Leiden five-stone paver collection that also includes Arena, Park and Plaza stones.

Composition and Manufacture

Holland and Half Holland Stones are made from a low moisture concrete mixture. It is made under high pressure and high frequency vibration, producing a very dense stone, low in water absorption (less than 5%) and high in compressive strength PSI (above 8000). It is designed to meet or exceed ASTM C-936 and ASTM C-67 (freeze/thaw) specifications.
