

LEIDEN

Pattern Sheet

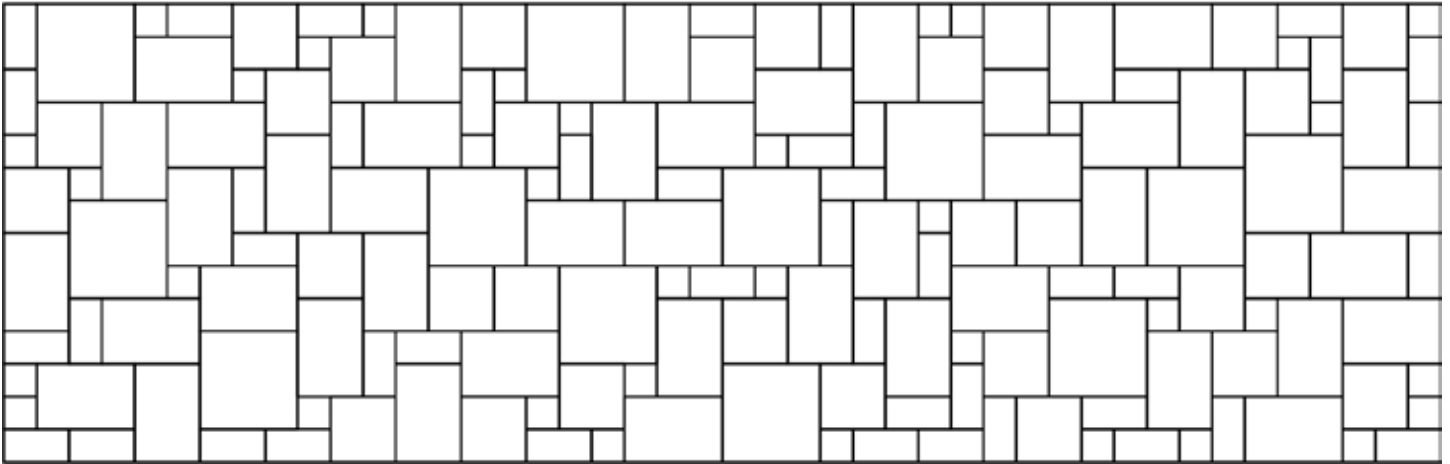

FIVE STONE

This five-stone pattern works with our pavers that have a 12" module such as our entire Granite Stone line as well as our Leiden Collection. It uses 43% Arena Stone, 32% Plaza Stone, 16% Park Stone, 8% Holland Stone, and 4% Half Holland Stone.

MODIFIED MARSEILLES

Modified Marseilles uses 30% Park or La Pietra™ 14x21, 40% Park or La Pietra™ 14x14, 20% Holland or La Pietra™ 7x14, and 10% Half Holland or La Pietra™ 7x7

RANDOM LAYOUT

Random layouts are commonly used when laying paving stones of various sizes that module together such as the five stone Granite, the five stone Leiden Collection (shown above) and La Pietra™ Quattro. Random layouts are not a pattern. They are literally any placement of the stones in any order.

Two simple tips to ensure that you are laying a true random layout are:

Never have four corners meet

Never have any joint running linearly for more than about nine feet
