

Gradino™ Wall Pewter

# Gradino™ Wall Block

  Special installation procedure required.  
For more details, see full manual

When you think “retaining wall block” this is it. Gradino™ Wall is a standard 6x16 split-face wall block like you know and love. We’ve added a heavier color loading to our block for more dramatic color blending. The colors are also made to the same recipes as our other products so they’ll match exactly. If you want a matching cap, our Versa-Cap is a great choice!
